

FORESTRY, MARKETS AND SOCIETY
Freiburg International Summer School
July 2nd – 13th, 2007

OBJECTIVES:

The programme is designed for young scientists working in the field of forestry and other related fields of natural resource management. One aspect is to offer participants an opportunity to gain knowledge in economic, ecological and social aspects in connection with the management of forests in Europe with a regional focus on the Black Forest, a mountainous region in the southwest of Germany. Other aspects are the encouragement of research projects in cooperation with German universities and industries as well as the extension of contacts.

The Faculty of Forest and Environmental Sciences of the University of Freiburg in cooperation with the German Academic Exchange Service (DAAD) provides scholarships to participate in the programme.

The „Forestry, Markets and Society” Summer School is part of the programme „Integrated Environmental Engineering“, funded by the German Federal Ministry of Education and Research (BMBF).

MAIN TOPICS 2007:

The summer school will deal with the most important issues linked to the sustainable management of forests.

Components included: Silviculture, Forest Inventory and Monitoring, Forest Utilisation, Marketing of Products, Management and Planning, Forest Politics, Services of Forests.....

PARTICIPATING REGIONS:

All countries from:

- Asia
- Latin America
- Middle and Eastern Europe
- Scandinavia and Finland

The programme is open for applications from all countries of the above mentioned regions. The programme „Integrated Environmental Engineering“ encourages especially interested scientists from **China, Brazil, Estonia, Latvia, Lithuania, Poland, Czech Republic, Slovakia, Hungary und Slovenia** to apply for the programme.

DATE SUMMER 2006: July 2nd – 13th, 2007

PROGRAMME LANGUAGE: English

PROGRAMME FEES: 500 € (covered by scholarship)

SCHOLARSHIP includes:

- subsidy to international travel (according to country of origin, will be paid in Freiburg)
